Journey

- i** BIMagine Global Studio (BGS) was founded by Saurabh Kumar in 2019. While working with some of AEC companies, Saurabh observed that the potential of many young talents are not being utilized. Many of them lost their jobs in COVID pandemic as well.
- ii** An integrated team having the appropriate mix of talent, creativity and expertise was created including project managers, architects, engineers and draftsmen who use latest digital design tools and BIM process to deliver construction documents and models as per the client standards across all time zones.
- iii** This not only generated employment but also helped our overseas clients in their business growth through our remote employees. They can now focus more on the cores and adding value to their business.
- iv** Currently BGS is an Architectural and Engineering company offering all types of design solutions and virtual design construction (VDC) services which includes BIM and CAD support to its overseas clients reducing their workload and enhancing their productivity. Hence our clients spend minimum time on review cycles and get quality deliverables.

Saurabh Kumar
Founder & CEO

- ⦿ B.Tech Hons.in Civil Construction
- ⦿ Work experience in leading MNCs of AEC industry.
- ⦿ 8+ years of experience as digital design practice leader.
- ⦿ Awarded by Indian Concrete Institute and Association of Consulting Civil Engineers, India for his work on BIM.
- ⦿ Founder of " BIMagine Learning Frame " which uplift skill set of graduates and professionals in A/E industry.

01. Construction Documents Set

CD Set includes but not limited to :

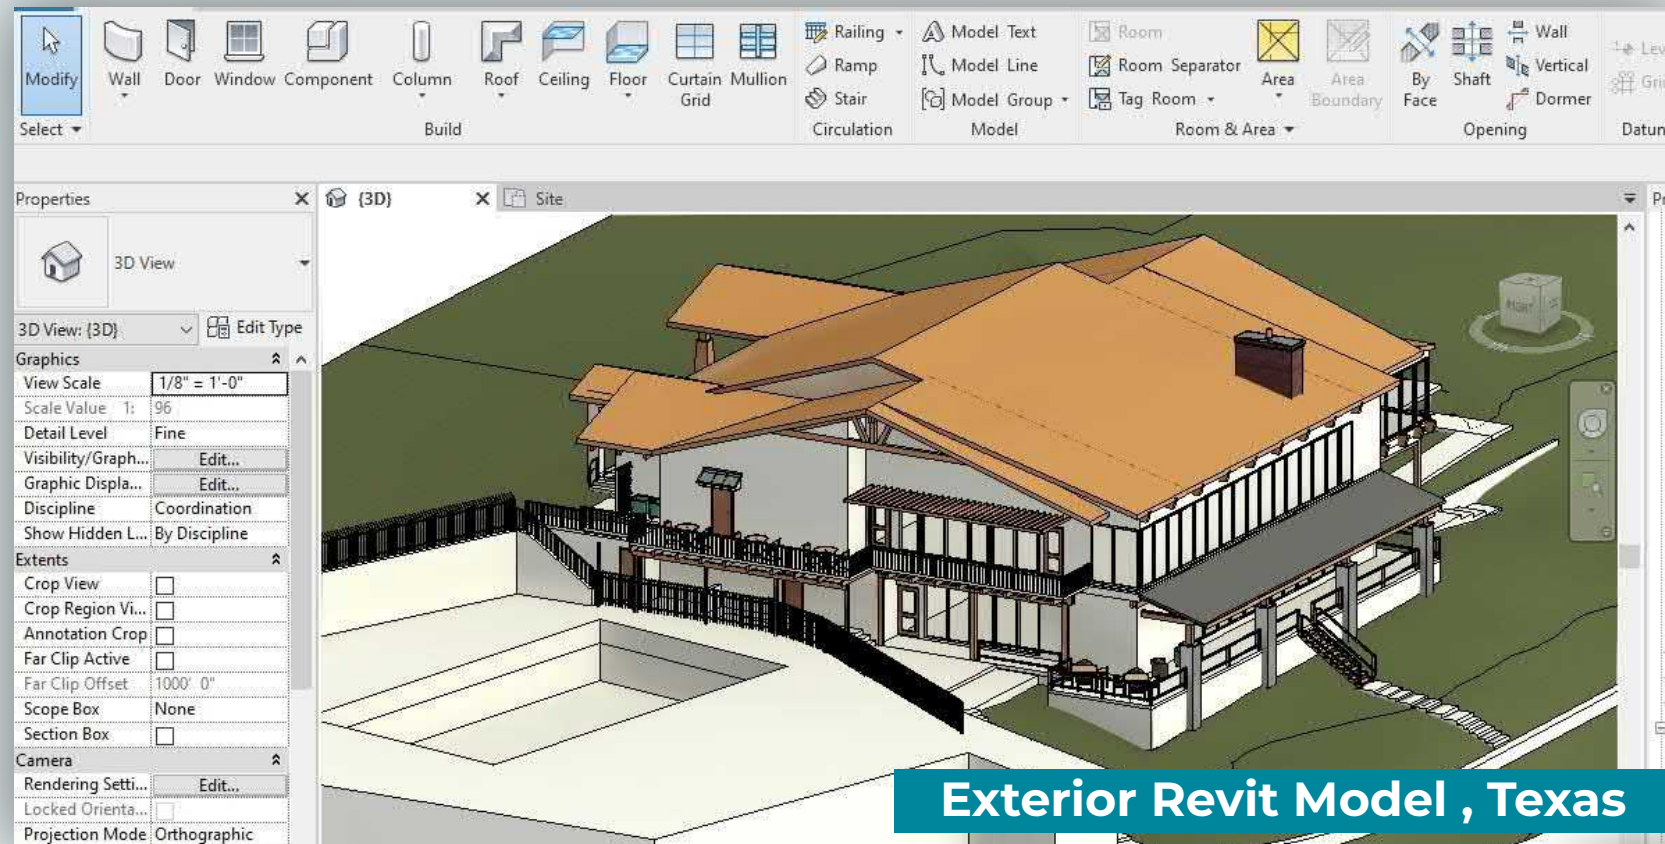

- ✓ Site Plan
- ✓ Demolition Plan
- ✓ Existing Floor Plan
- ✓ Proposed Floor Plan
- ✓ Reflected Ceiling Plan
- ✓ Life Safety Plan
- ✓ As-Built Drawings
- ✓ Building Elevations
- ✓ Wall Sections
- ✓ Enlarge Restroom Plans
- ✓ Building Sections
- ✓ Millwork Details
- ✓ Door and Window Schedules

BIMagine is well equipped with resources to handle the project from conceptual and schematic design stage to design development and construction documentation. We produce architectural construction documents with permit set and working drawings. With a highly proficient team in AutoCAD and Revit software we provide excellent construction documentation service. We concentrate mainly on accuracy & quality of architectural construction documents.

Note : A strict quality check before delivery is followed. We follow an approach of effective communication with client and stick to the initial schedule as decided throughout the project.

02. Architectural 3D Modeling & BIM Service

We at BIMagine provide a one point solution of all your architectural 3D & BIM Modeling needs. Our service integrates all the design changes and projects updates over the project duration to help the designers and engineers make a calculated decision. We provide a seamless and hassle-free coordination between all the project stakeholders. With the better understanding of BIM in Architecture/ Engineering/ Construction, our expertise and experience lie in developing detailed BIM Models for residential and commercial buildings, hospital and industrial, schools and other buildings of complex nature.

Architectural BIM modeling service includes :

- ✓ Architectural Revit 3D Modeling
- ✓ Architectural Exterior Modeling
- ✓ CAD to BIM Models
- ✓ Revit Family Creation
- ✓ Construction Drawings Extracted from Revit
- ✓ Scan to BIM service
- ✓ As-Built BIM modeling

03. Renderings and Walkthroughs

Texas

“Give your Ideas a 3D Walkthrough”

This Package Includes:

- ✓ Exterior Rendering and Walkthrough
- ✓ Interior Rendering and Walkthrough
- ✓ 3D Floor Plan Rendering and Walkthrough
- ✓ Aerial View Rendering and Flythrough
- ✓ Furniture and Fixtures Rendering Services
- ✓ Assign effects of texture, lighting and shadows
- ✓ Flat Elevation Renderings

Florida

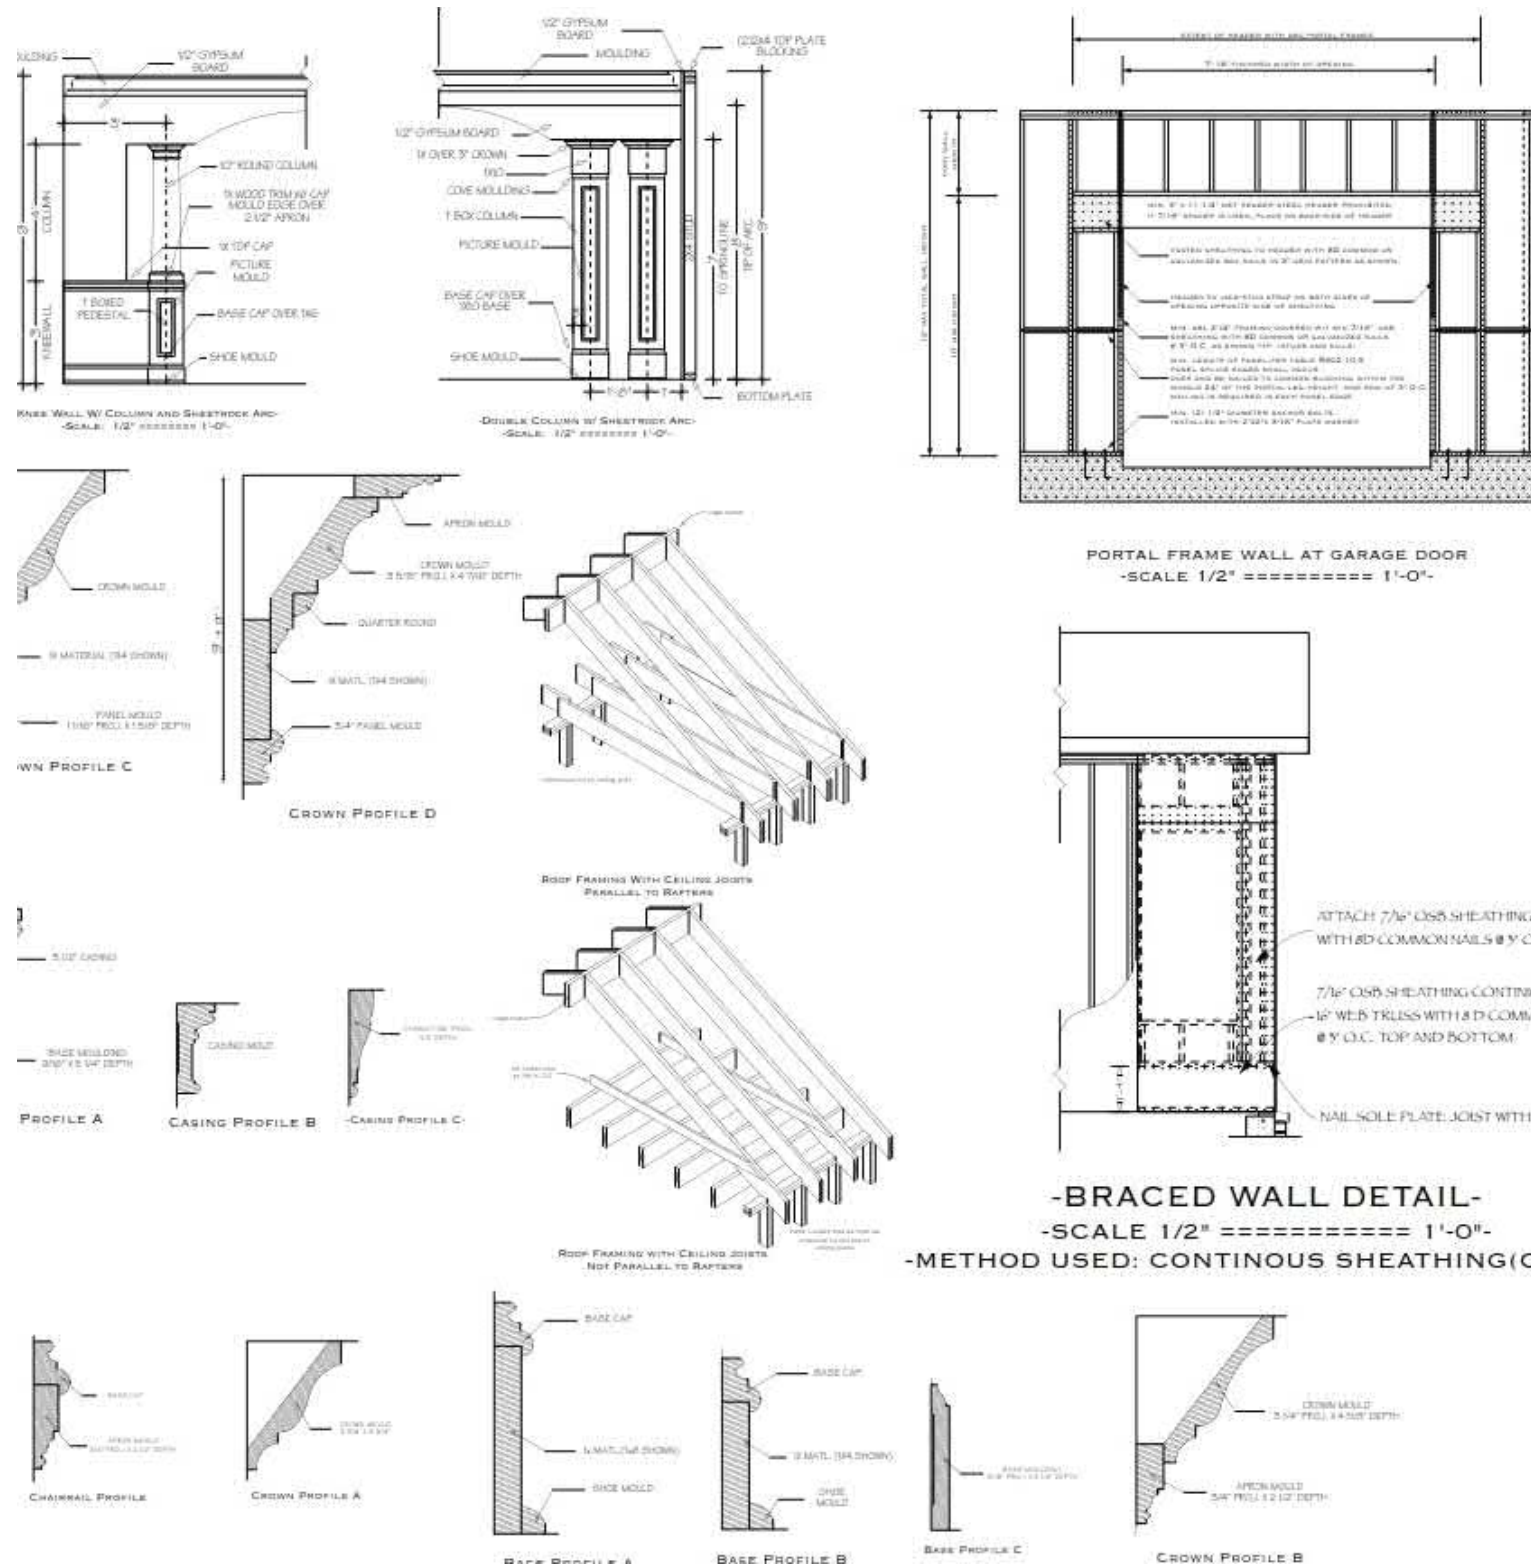

Nigeria

England

04. Shop Drawings

Our in-house team of experienced modelers and draftsmen can generate precise shop drawings for fabricators. For better facility management need of extracting shop drawings for different stage of construction is an important aspect. They act as a guided pathway for project completion.

This Package Includes:

- ✓ Façade Shop Drawings
- ✓ Doors and Windows Shop Drawings
- ✓ Railing Shop Drawings
- ✓ Millwork Shop Drawings
- ✓ Visual Mockups (VMU)
- ✓ Glass Shop Drawings
- ✓ Curtain Wall Shop Drawing

05. Furniture/Millwork Modeling and Detailing

This Package Includes:

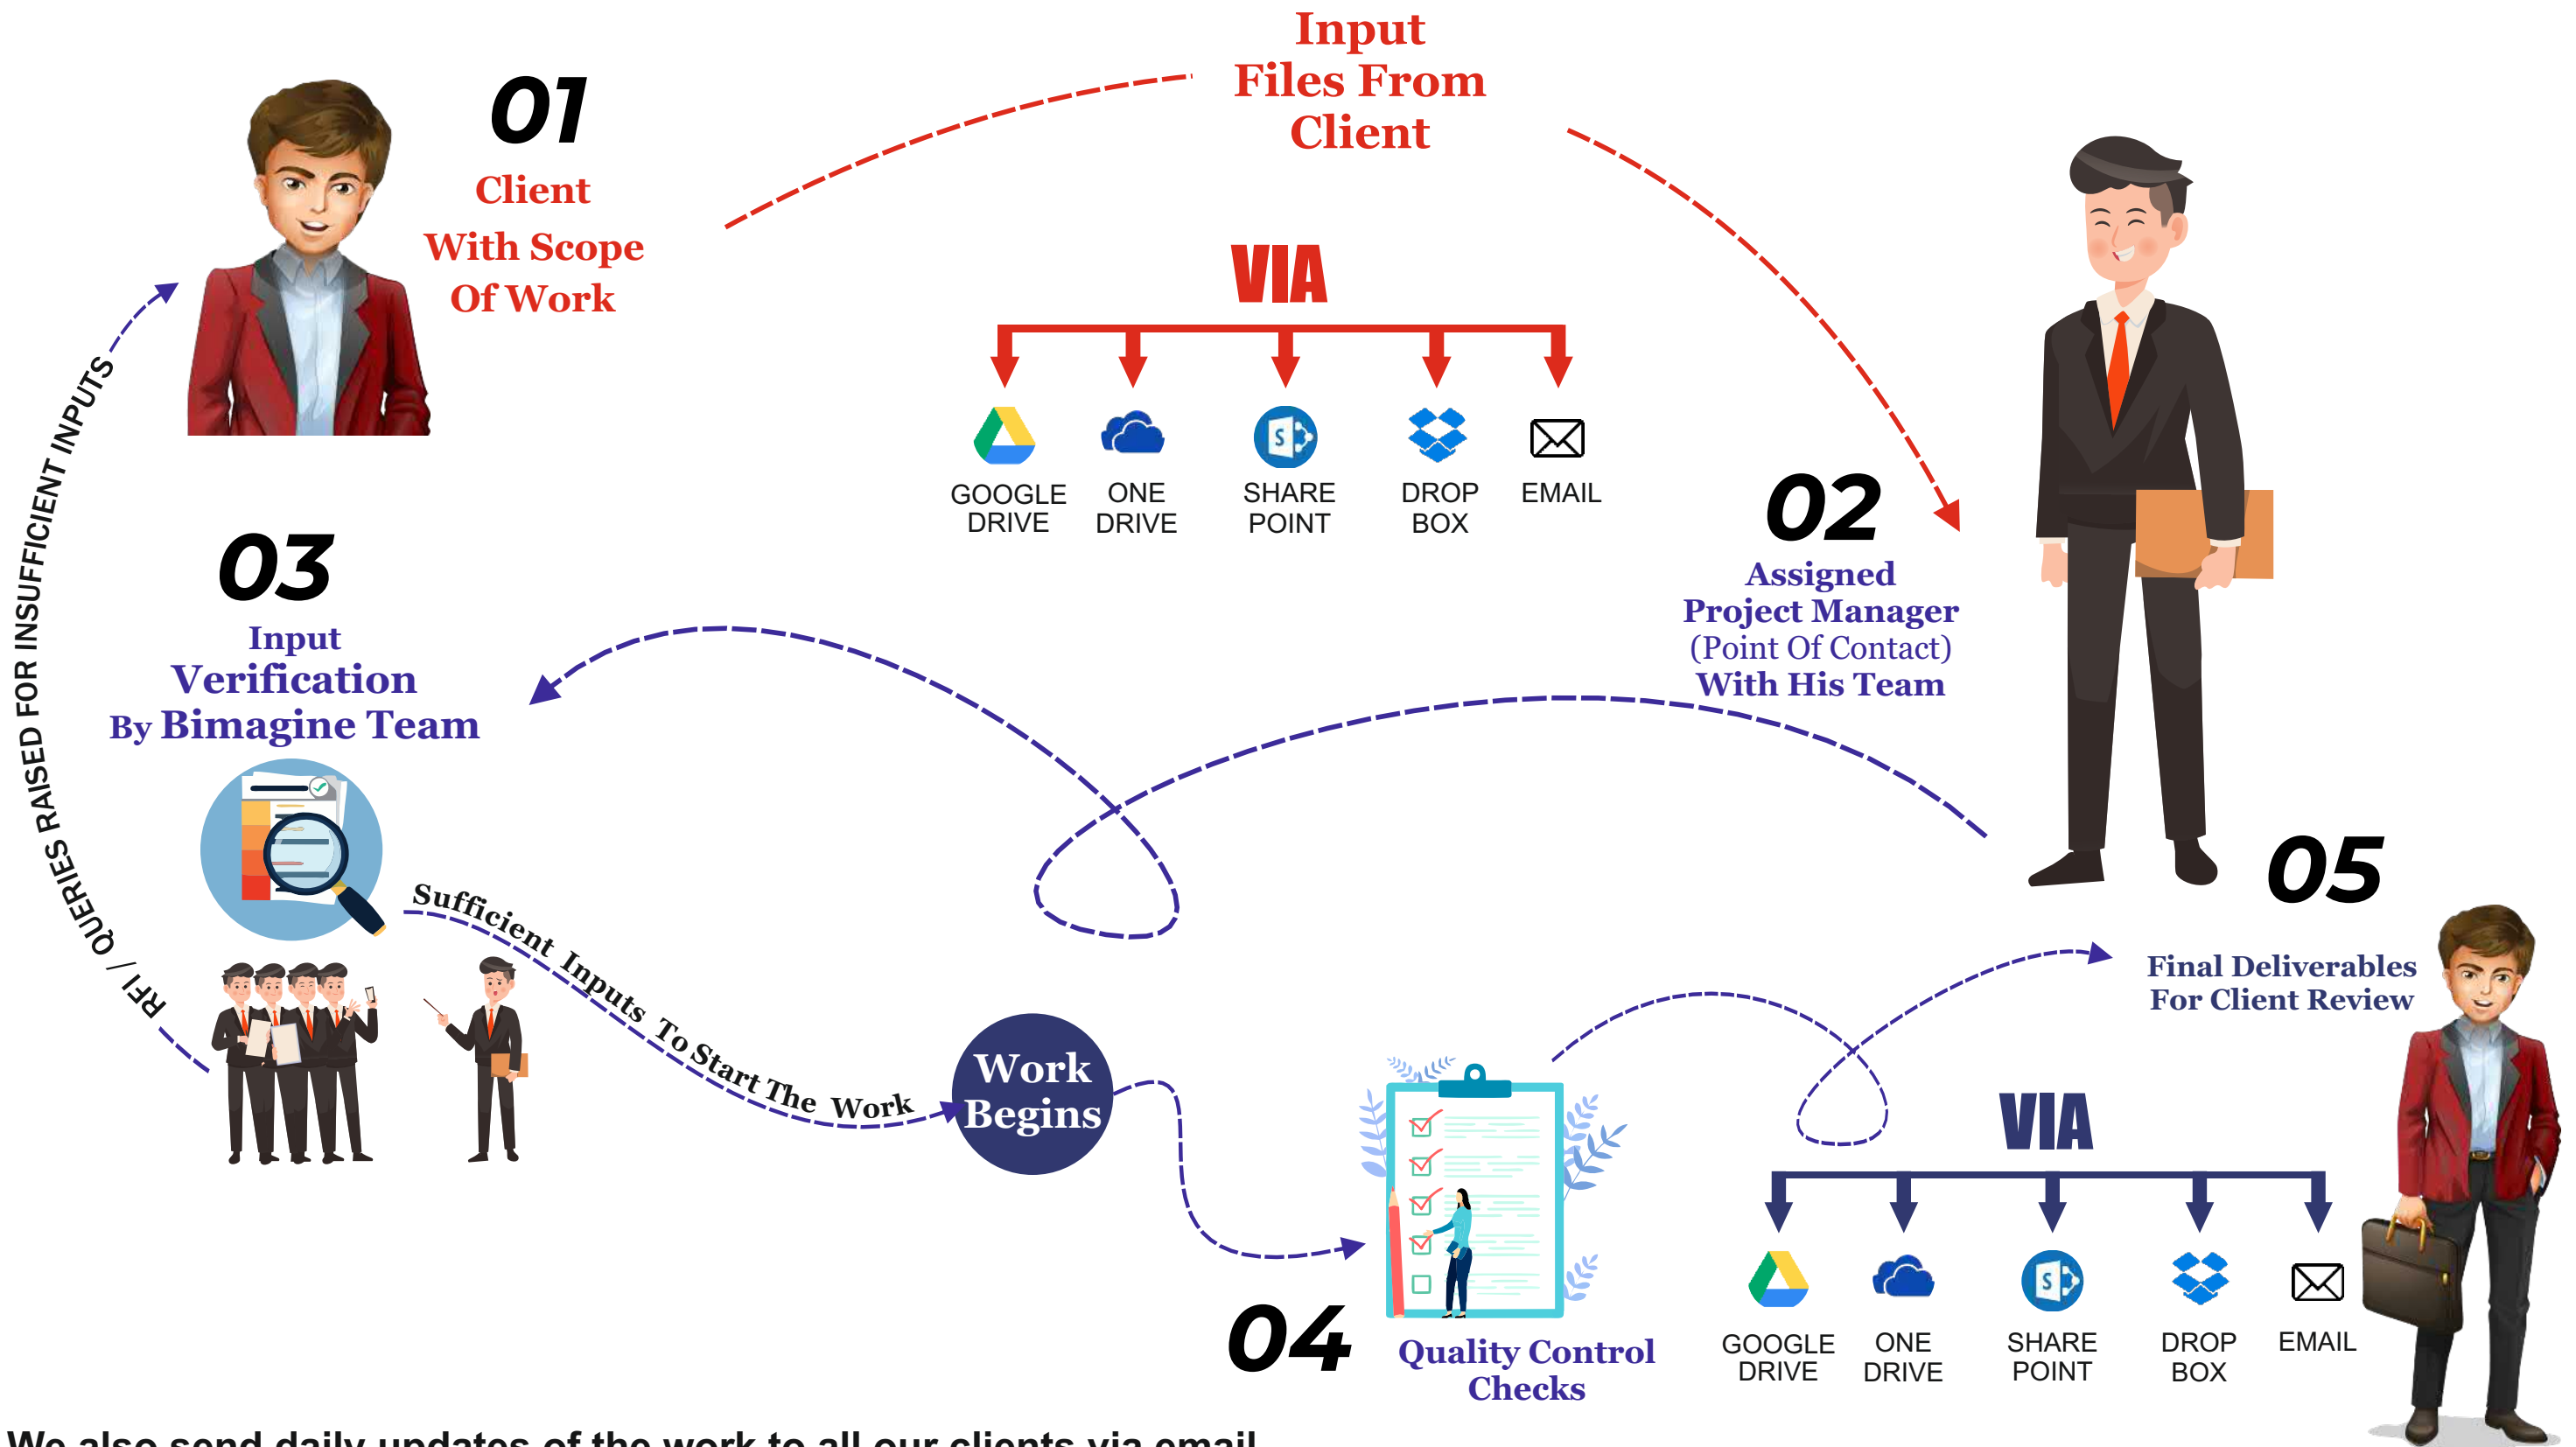

- ✓ Home Furniture Modeling
- ✓ Kitchen Millwork Modeling
- ✓ Commercial Furniture Modeling
- ✓ Office Furniture Modeling
- ✓ Custom Furniture Modeling

We at BIMagine offers a furniture modeling service for all residential, office and hospitality needs. From reception to bedroom, kitchen, balcony to terrace and everything in between, we crater all your concept sketches, model them and render them to bring your visualization into reality. Our experienced team of product designers assist you to judiciously use floor space.

How it Works

5 Step Process

Note : We also send daily updates of the work to all our clients via email.
